

M-80 ASSEMBLY INSTRUCTIONS

STEP 1 Attach one of the red feet to the lower bar with one of the five screws provided. The red feet are the same but only the front leg is attached to the bar.

STEP 2 Position the second red leg and the surface as shown and attach the surface to the red legs with the four remaining screws.

STEP 3 If your M-80 appears to be leaning to the left or right... loosen the screw that holds the front red leg to the bar... align the tube and tighten the screw.
